

Bell and Carlson EZ-Roost Target System

"The Ultimate Target System"

Made in the U.S.A., designed for entertainment and to generate interest in target and recreational shooting. Let's face it, it's just not that much fun shooting at paper targets. It's also a real problem figuring out what to attach them to and how to hang them.

The low cost, easy setup and unlimited versatility of the EZ-Roost is why it is considered the "Ultimate Target System". Plus, it's really fun to shoot at a target that actually breaks! It's much more fun than just punching holes in paper.

The EZ-Roost is designed primarily to be used for small and large rifles and pistols at 5 to 500 yards, but it is also a great target for BB/pellet guns and archery. Setting up is as easy as inserting the metal post into the ground, sliding the target holder onto the post and positioning a standard 4 1/2" clay target in the holder.

The EZ-Roost comes complete with four target holders and four mounting posts and is packaged in a clamshell for easy display. The holders are designed to be used with the metal posts included, but they will also fit on a common 3/8" steel post, such as electric fence posts, dowels, etc.

EZ-Roost Target System
